FACIAL

Aloe Fleur de Jouvence®

For centuries, numerous civilizations have used pure, fresh Aloe Vera to help their skin look and feel healthy, young and beautiful. The Egyptians, renowned for their continuous quest for physical beauty as epitomized by Cleopatra, used Aloe Vera for its moisturizing qualities in their efforts to remain young looking. Today, Forever Living Products has captured the full strength of the living plant and blended it into one of the finest skin care regimes available.

Aloe Fleur de Jouvence ('Flower of Youth') is one of the most effective restorative beauty collections ever assembled. It is a collection of six wonderful components – each designed to fill a special part in a complete regimen of facial skin care. Combining the benefits of traditional wisdom with the scientific knowledge of modern dermatology, Forever Living Products has spared no expense in researching and developing excellent products. Displayed in a timelessly elegant container, the collection also includes a mirror, mixing spoon and application brush. While each of the products is available separately for replacement, it is only through the combined use of all six elements that the full benefits can be enjoyed.

Each product in Aloe Fleur de Jouvence has been developed with great care and attention to the daily needs of your skin. We start with pure, Stabilized Aloe Vera gel, and combine it with nature's unique cellular substances, Hydrolyzed Elastin and Collagen, along with

exceptional moisturizers, emulsifiers and humectants. This creates a unique skin care range that helps counteract the threat of time, weather and environmental elements. The preventive and restorative Aloe Fleur de Jouvence program provides a daily skin care regime to help promote the naturally occurring attributes of youth, vigor, freshness and radiance of the skin.

Aloe Vera has always been great for the skin. Now, pamper yourself even more with Forever Living Products Aloe Fleur de Jouvence!

Aloe Fleur de Jouvence® Restorative Beauty Regime Instructions

The Aloe Fleur de Jouvence Collection provides you with all the elements of our restorative regime, together with an instruction booklet. This summary of the entire treatment will instruct you on how to use each of the six elements.

STEP 1

Cleanse

Exfoliating Cleanser is the first step in achieving beautiful, flawless skin. Massage Exfoliating Cleanser into face and neck area every morning and evening. Gently remove with a dampened cloth or tissue.

STEP 2

Tone

Rehydrating Toner is alcohol-free and contains aloe vera, collagen and allantoin for gentle toning. Using a cotton ball, apply Rehydrating Toner in an upward motion every morning and evening.

STEP 3

Moisturize (Morning)

Firming Foundation Lotion is a hydrating moisturizer that helps skin retain its healthy, vibrant appearance. Gently massage lotion into the face and neck area. It also makes an excellent base for applying your favorite cosmetics from the Sonya Colour Collection.

STEP 3

Moisturize (Evening)

Recovering Night Creme hydrates and soothes, replenishing your skin while you sleep. After

cleansing each evening before bedtime, apply generously to face and neck area.

Aloe Facial

An Aloe Facial is recommended 2 to 3 times a week to smooth, cleanse and tighten the skin while revitalizing your appearance. Aloe Activator is a superb moisturizing agent and is the ideal partner to work in combination with the Facial Contour Mask Powder. Aloe Activator is also extremely effective as a skin cleanser, freshener and astringent.

Add one mixing spoon of Facial Contour Mask Powder to the mixing bowl. Combine with one mixing spoon of Aloe Activator until the mixture has the consistency of lotion. Use the applicator brush to apply a thin, even film from the neck upward. Relax in a reclining position, limiting facial movement for approximately 30 minutes.

Apply a moist towel to the face to soften the mask, then gently remove remaining mask and rinse with warm water. Follow with toner and your favorite moisturizer.

For additional benefits, use Forever Living's Facial Fabrique Tissue (#7039.) This revolutionary product heightens exfoliation by refining the pores and tightening the skin. Facial Fabrique's unique layering design also helps the skin better absorb the many wonderful nutrients found in the aloe vera rich moisturizers from Forever Living Products.

Aloe Fleur de Jouvence® Aloe Activator

Aloe Activator contains Stabilized Aloe Vera gel and Allantoin, an organic substance that has been shown to aid in cell growth and renewal. Aloe Activator is a superb moisturizing agent, containing enzymes, amino acids and polysaccharides. It makes the ideal liquid partner to work in combination with our Facial Contour Mask Powder to moisturize, cleanse and condition. Dead skin cells are removed by the mask, leaving new cells to give a fresh, vibrant and more luminous look to the skin. Its pH balance is 4.5, making it even gentle enough to use near the eyes.

Aloe Activator is incredibly versatile. Although regarded as a principal component of the Aloe Fleur de Jouvence regime, it is extremely effective for a number of other purposes, such as a skin cleanser, freshener and astringent. In this capacity, apply to a cotton ball and wipe the entire face and neck gently and thoroughly until clean.

PRODUCT #234

R3 Factor[®]

Help your skin **RETAIN** its natural moisture, **RESTORE** its resilience and **RENEW** its appearance with R3 Factor Skin Defense Creme – a rich combination of stabilized Aloe Vera gel, soluble collagen and alpha-hydroxy acids, fortified with vitamins A and E, each vital to healthy skin.

Vitamin E is a powerful antioxidant, while vitamin A helps in the maintenance of healthy skin and is beneficial for many skin conditions.

Alpha Hydroxy Acids (AHAs) come from natural plant sources and are also called Fruit Acids. Glycolic Acid is extracted from sugar cane, Citric Acid derives from citrus fruits, Tartaric Acid comes from grapes and Malic Acid is found in apples. Together, these fruit acids are exfoliants that loosen dead cells from the skin's surface by dissolving the natural glue-like substances that refuse to release the dead skin cells. These cells create a barrier to moisturizing creams, so getting rid of these dead cells evenly means that fresher cells are exposed in the skin's renewal process. Since it takes 21-28 days for the skin renewal process to complete a cycle, allow a similar amount of time to realize the full benefits of R3 Factor.

Fruit acid creams have been called the most important skin care agents of the decade. By combining AHAs with soothing aloe, R3 Factor Skin Defense Creme provides a first line of defense in fighting the harsh effects of time to

preserve your skin's youthful appearance.
